

# The true taste and color of green tea.

抹茶

## Matcha

Natural Green Tea Leaf Powder

Green tea is an emerging ingredient in healthy foods and beverages. But all green tea isn't the same. Like Taiyo's Matcha green tea powder that imparts a natural, vibrant green tea color and robust flavor, delivering the true essence of green tea. Matcha is perfect for a wide range of applications including ice creams, yogurts, dairy beverages, confections and foods. Taiyo uses a proprietary manufacturing process that mills premium tea leaves at extremely low temperatures to capture Matcha's natural green color and savory taste that consumers desire. Furthermore, this unique process prevents the loss of naturally occurring antioxidants, vitamins, minerals, fiber and amino acids. For true green tea taste, color and health, rely on Matcha. **For more information, contact [sales@taiyoint.com](mailto:sales@taiyoint.com).**
