

The essence of green tea, naturally.

Green tea is an emerging ingredient for use in healthy foods and beverages. Taiyo's Sunphenon® line of natural green tea bases are perfect for use in antioxidant-rich products without the color or astringency typically associated with green tea. Taiyo has over 20 years of experience formulating beverages, dairy products and foods with green tea ingredients. For the true essence of green tea, rely on Sunphenon. **For more information, contact us at sales@taiyoint.com or (763) 398-3003.**
