

# Sunfiber®

## Invisible Fiber - Visible Benefits

July 1, 2013

Sunfiber is an all natural, galactomannan based soluble fiber made from hydrolyzed guar gum. Tasteless, colorless and odorless, Sunfiber has no visible effect on your product but significantly boosts its health benefits and improves functionality in foods and beverages. It delivers high soluble fiber content with low caloric contribution (1.9 kcal/gram) and exhibits excellent stability with respect to pH and heat. Sunfiber is a prebiotic fiber that helps improve beneficial probiotics, including *Bifidobacteria* and *Lactobacillus*. Sunfiber is a true regulating fiber that not only helps with constipation, but uniquely helps with diarrhea as well, returning stool content to a normal healthy state without the typical bloating, cramping and gas production of other fibers. Sunfiber is 100% Gluten Free, GRAS (self affirmation), non GMO, certified Kosher and HALAL.

Product	Specification	Application
Sunfiber R	> 85% soluble fiber – regular grade	Regular grade for use in foods, beverages and supplements.
Sunfiber AG	> 85% soluble fiber – agglomerated	Agglomerated for powder applications, offering instant solubility

## Sunfiber+ Series

Pre-agglomerated and standardized concentrations of key nutrients for easy handling, formulating and optimal physical and physiological benefits! Sunfiber+ Series delivers carefully selected nutrients with the benefits of the worlds best soluble fiber – Sunfiber.

Fiber Blends		
<i>The combination of Sunfiber with other soluble and insoluble fibers improves the benefits and reduces typical negatives associated with the target fiber. Benefits include sustained fiber and sustained satiety effects.</i>		
+Agave 40	40% agave inulin + 60% PHGG – agglomerated	Agglomerated for powder applications, offering instant solubility
+Agave 60	60% agave inulin + 40% PHGG – agglomerated	Agglomerated for powder applications, offering instant solubility
+Insoluble fiber*	Soluble and Insoluble fiber blend – agglomerated	Custom blend made to order.
+Protein*	Soluble fiber and protein extruded chips	Custom blend made to order for use in bars, cereals and snacks

\* Custom blend made to order.

Mineral Blends*		
<i>Unlike other soluble fibers, Sunfiber improves the absorption of minerals including Calcium, Iron and Zinc.</i>		
+Ca	The benefits of Sunfiber and SunActive Calcium in a convenient agglomerated powder.	For use in supplements, foods and beverages.
+Fe	The benefits of Sunfiber and SunActive Iron in a convenient agglomerated powder.	For use in supplements, foods and beverages.
+Zn	The benefits of Sunfiber and SunActive Zinc in a convenient agglomerated powder.	For use in supplements, foods and beverages.

\* Custom blend made to order.
